

Product Overview:

Portable Gas Powered Liquid Transfer Pump

Let us help you take the hassle out of transferring liquid out of tanks!

Transferring liquid made easy!

Pumping liquid out of domestic tanks can be a hassle. We make it easy! Our portable gas-powered liquid transfer pump can help by:

- Transferring approximately 8-10 gpm, saving you time reducing labor costs
- Saving wear and tear on bobtail pumps that are equipped with an off-line
- Transferring product from a longer distance if the tank is remotely located
- Having a longer service life than the small vapor compressor

Our liquid transfer pump includes:

- Blackmer® LGF1PE-13 gpm liquid pump
- Honda engine with 2-to-1 gear reduction box and spark arrestor
- Includes all required hoses and ACME connections
- Locking fold-down handle

Want to know more? Give us a call. Our portable transfer pump is the easiest way to pump liquid out of domestic tanks, saving you time and money!
